KADONADA LAUNCHES USBenefits Insurance Services, LLC

NEWPORT BEACH, CA. -- Long time insurance executive and medical stop loss insurance pioneer, George Kadonada, announced the formation of USBenefits Insurance Services, LLC. As a full service Managing General Underwriter, USBenefits will provide medical stop loss insurance for employee groups through qualified Third Party Administrators and select brokers in the self funded employee benefits market.

“In the ever-changing and demanding environment that defines the marketplace today, an organization must deliver more than minimum expectations. There are fewer options for placement as the stop loss market continues to consolidate and becomes more and more institutionalized due to public ownership. Producers need alternatives to best serve their clients’ needs.” stated Mr. Kadonada. “Our goal at USBenefits is to support the Third Party Administrators in their efforts to reclaim market share in group health employee benefits.”

Rick Paul, ASA, MAAA, and Marc Floyd join Mr. Kadonada at USBenefits Insurance Services, LLC. As established professionals, their knowledge and experience provide the organization with demonstrated strength in the medical stop loss insurance field.
